## Projects

---

**Social Media Clone (React & Express)** - Developed a functional social media platform using React for the front-end and Express for the back end. This project allowed users to create profiles, post content, and interact with each other.

**PayPal Frontend Clone (HTML & CSS)** - Created a visually accurate clone of the PayPal website using HTML and CSS. This project honed my skills in replicating website layouts and user interfaces.

**To-Do List App with Database (JavaScript, SQL)** - Developed a user-friendly to-do list application using JavaScript for interactivity and MySQL for persistent data storage. Users can add, edit, and delete tasks, showcasing proficiency in both front-end.
