SUMMARY

I'm a devoted Software Engineering student who loves crafting interactive and user-friendly websites. Right now, I'm really excited about finding a web development internship. I know my way around coding and I'm super into new technologies. I can't wait to use my skills and be part of a team that's all about making awesome and effective stuff on the internet.

EDUCATION

Bachelor in Software Engineering (2021-25)	♦ National University of Sciences and Technology (NUST)	CGPA ♦ 3.96/4
HSSC in Pre Engineering (2019-21)	♦ Aspire College Sadiqabad	%age ♦ 97%
SSC in Biology (2017-2019)	♦ Al-Faysal High School Sadiqabad	%age ♦ 94%

Skills

Technical Skills	C++, JAVA, Linux, AutoCAD, Software Development, HTML, CSS, Tailwind, JS, SQL, OOP, DSA
Soft Skills	Problem Solving, Teamwork, Agility, Adaptability
Tools	Cisco Packet Tracer, Wireshark, MS Office, MS Visio, Visual Paradigm, MATLAB, Auto Desk AutoCAD, MS SQL Server, Scratch, Adobe Premier Pro, Adobe Light Room
Language	English, Urdu, Punjabi

Projects

Library Management System. It consisted login page, user information and books database, search option, filter option, issue and return book feature etc. It was built in java and front end was designed in JavaFX and HTML.

Banking Management System. I designed a Bank Management System for a university project, incorporating user profiles, account management, transactions, and an admin dashboard. Utilized Java, HTML, CSS, JavaScript, and MySQL for seamless functionality and secure data handling.

3D House Model . It was built in AutoCAD. It consisted of 3 floors and we also put 2D drawing of furniture. We also used materials to give it finishing look, My role was to build 3D model out of 2D and to make sure that everything is in correct layer(It was a university assignment) .

Courses & Certifications

- CS50's Introduction to Computer Science
- CS50's Introduction to Web Programming using Python and JavaScript
- Devtown Bootcamp C++ And Data Structures And Algorithms
- Meta Introduction to frontend development
